The Pierre Fabre Group is the only company in France that is majority-owned (86%) by a government-recognized public-interest foundation: the Pierre Fabre Foundation.

The remaining shares are owned by the Group employees (8.5%) and in treasury stock (shares owned by the company itself).

The Pierre Fabre Foundation, a government-recognized public-interest organization since 1999, aims to improve access to quality drugs and healthcare in the countries of the Global South.

Its action focuses on 5 areas: training of health care professionals, access to quality health care, combating sickle-cell disease, dermatology and e-health.

As the Foundation is dedicated to its public interest mission, in delegating the supervision of the Group’s operational management to its subsidiary, Pierre Fabre Participations, Pierre Fabre Participations approves the Group’s strategy, appoints its main executives and ensures that the continuity mission defined by Mr. Pierre Fabre is respected:

- ensuring the Group’s independence
- maintaining the Pharmaceutical and Dermo-Cosmetics activities
- maintaining a significant proportion of profits in R&D
- prioritizing long-term goals over short-term financial results
- ensuring the Group’s footprint in its birth region and its culture of corporate social responsibility
- allowing the Pierre Fabre Foundation to pursue its objectives through a suitable dividend payment policy

Its Board is chaired by Pierre-Yves Revol.

Pierre Fabre S.A. develops and implements the Group’s strategy and coordinates the operational activities. Pierre Fabre Pharmaceuticals and Pierre Fabre Dermo-Cosmetics are subsidiaries of Pierre Fabre S.A., which is directed by Eric Ducournau.
The Pierre Fabre Group, founded by Pierre Fabre, a pharmacist and botanist in 1962, is an international pharmaceutical, consumer health care, and dermo-cosmetics laboratory. The Pierre Fabre Group, founded in Castres (Tarn), has been present in over 130 countries and its products are sold in over 250 markets. It is the leader in France for OTC products sold in France. As part of its public health mission, Pierre Fabre has made plant-based active ingredients: Botanical Expertise a major focus of its research for over 50 years. Pierre Fabre has formalized a certified process* for the responsible development of innovative, safe and effective plant-based active ingredients: Botanical Expertise. Pierre Fabre has been awarded the “Excellence” level of the EFQM European Certification* program. In 2018, Pierre Fabre dedicated close to €800 million to R&D in four areas of medicine: oncology, consumer health care, dermatology and dermo-cosmetics. Its researchers are committed to creating original chances between the various areas using key elements, from oncology to dermo-cosmetics, onco-dermatology and medical dermatology. To this end, they have the support of several platforms of scientific experts including New Chemical Entities, New Biological Entities (monoclonal antibodies, immunotoxins, etc.), translational medicine, and clinical development.
